WHAT IS MICROHYDRA-LIFT®?

MicroHydra-LIFT® is the newest treatment available utilising a specialised equipment to deeply cleanse and push moisture molecules into the deeper layers of the skin using a specialised whirlpool tip to suck oxidised sebum from the skin pores simultaneously pushing moisture molecules into the skins deeper layers of the skin. This is a 8 step treatment combining four technologies to best achieve a smoother plumper well moisturised skin. The MicroHydra-LIFT® will leave the skin plump and glowy.

BENEFITS OF MICROHYDRA LIFT®

1. MOISTURISES DEHYDRATED SKIN
2. GIVES DULL SKIN A RADIANT GLOW
3. EXFOLIATES BUILD UP OF DEAD SKIN CELLS
4. SOFTENS AND SMOOTHS ROUGH FLAKY SKIN
5. DEEP CLEANSSES CONGESTED SKIN
6. REDUCES BLACKHEADS AND BREAKOUTS
7. OXYGENATES THE SKIN
8. PLUMPS THE SKIN
9. SOFTENS LINES & WRINKLES

The Microhydra-Lift® Facial can be offered as a stand-alone treatment or can be incorporated into any facial. It deep cleanses, exfoliates, extracts, hydrates, lifts and oxygenates, all in a 45 minute session.
